this game sucks. too little headcrabs. i expected more.. Good mod, but. It gets repititive after you beat the mod once. As in, you've beaten all of the maps, now you play them again. I still think it's a great mod, it looks fantastic for a GoldSource engine mod/game.. It's a fun game to play every now and again.. question can you possiably make a addon for gmod 13 that adds these

headcrabs? onto the actual review i have no idea whats going but install this its fun. Headcrabs have 4 legs. Do you know what else has 4 legs? You got it. Dogs, dogs have tails, so do pigeons. Pigeons have 2 legs, so do humans. Do you who else is a human? Gabe Newell. Gabe Newell owns Valve. Take away any "V" in valve and you get "ALE." The letters "ALE" are three letters. Do you know what else has three in it? Half-Life 3. Half-Life 3 confirmed.. Resolution maxed out in full screen.. Just the fact that it's one of the very few mods to have Linux support is enough to recommend it. But really, this mod is great and they did a good job of making it.. Its pretty nice, it's a fast download and its free, so it doesn't hurt to try it. Basically its a game where you smack hordes of headcrabs to death with a crowbar and get powerups.
